What is StorySight AI ?

StorySight AI is an intelligent storytelling system that transforms uploaded images into creative AI-generated stories.

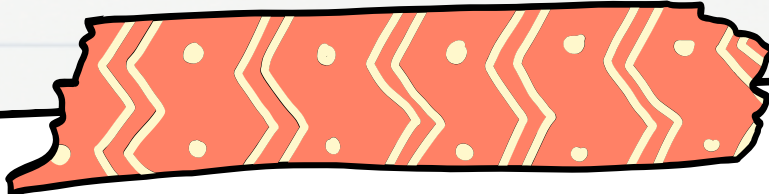

Core Idea

Users upload one or two images → the AI understands image content → generates captions → combines them into a complete story based on a selected genre.

The Problem

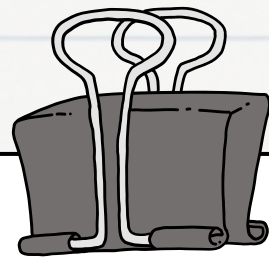

Creating engaging stories manually requires:

- Creativity
- Time
- Writing skills
- Context understanding

Most image captioning systems only generate short descriptions instead of full narratives

Our Solution

Build an AI pipeline capable of:

- **Understanding visual content**
- **Generating meaningful captions**
- **Creating complete emotional stories automatically**
- **Improving interaction through feedback handling**

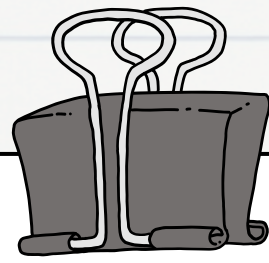

Objectives

- Generate captions from uploaded images
- Create long AI-generated stories
- Support multiple genres
- Evaluate generated content quality
- Build an interactive user-friendly interface
- Handle user feedback intelligently

TARGET OUTCOME

AN END-TO-END AI STORYTELLING PLATFORM.

Why These Models?

BLIP (Image Captioning)

- Strong vision-language understanding
- Accurate caption generation
- Easy integration with Transformers

FLAN-T5 (Story Generation)

- Excellent text generation
- Instruction-following capability
- Produces coherent narratives

BART-Large-MNLI (Evaluation)

- Performs zero-shot classification
- Evaluates quality without custom training

MODULE EXPLANATION

Vision Agent

Responsibility

Generate captions from uploaded images.

Process

1. Load image using PIL
2. Process image using BLIP Processor
3. Generate caption using BLIP Model
4. Decode generated tokens into text

Orchestrator Module

Responsibility

Controls the complete AI pipeline.

Main Tasks

- Load captioning model
- Generate captions
- Merge captions together
- Create final story
- Return final result

Acts as the "brain" coordinating all system modules.

Narrative Agent

Responsibility

Generate creative stories.

Features

- Accepts image captions
- Accepts selected genre
- Creates emotional narrative
- Supports story improvement

Critic Agent

Responsibility

Evaluate generated stories.

Functions

- Zero-shot classification
- Story scoring
- Generate AI feedback

Workflow Pipeline

①

Upload Images

Users upload up to 2 images.

②

Image Captioning

BLIP model generates captions.

③

Caption Combination

Captions are merged into one context.

④

Story Generation

FLAN-T5 creates a complete story.

⑤

Story Evaluation

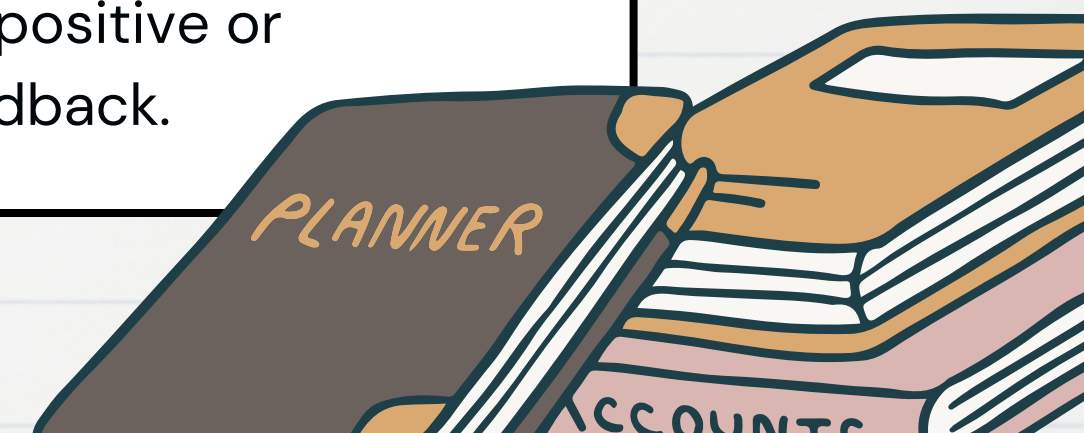

BART MNLI analyzes story quality.

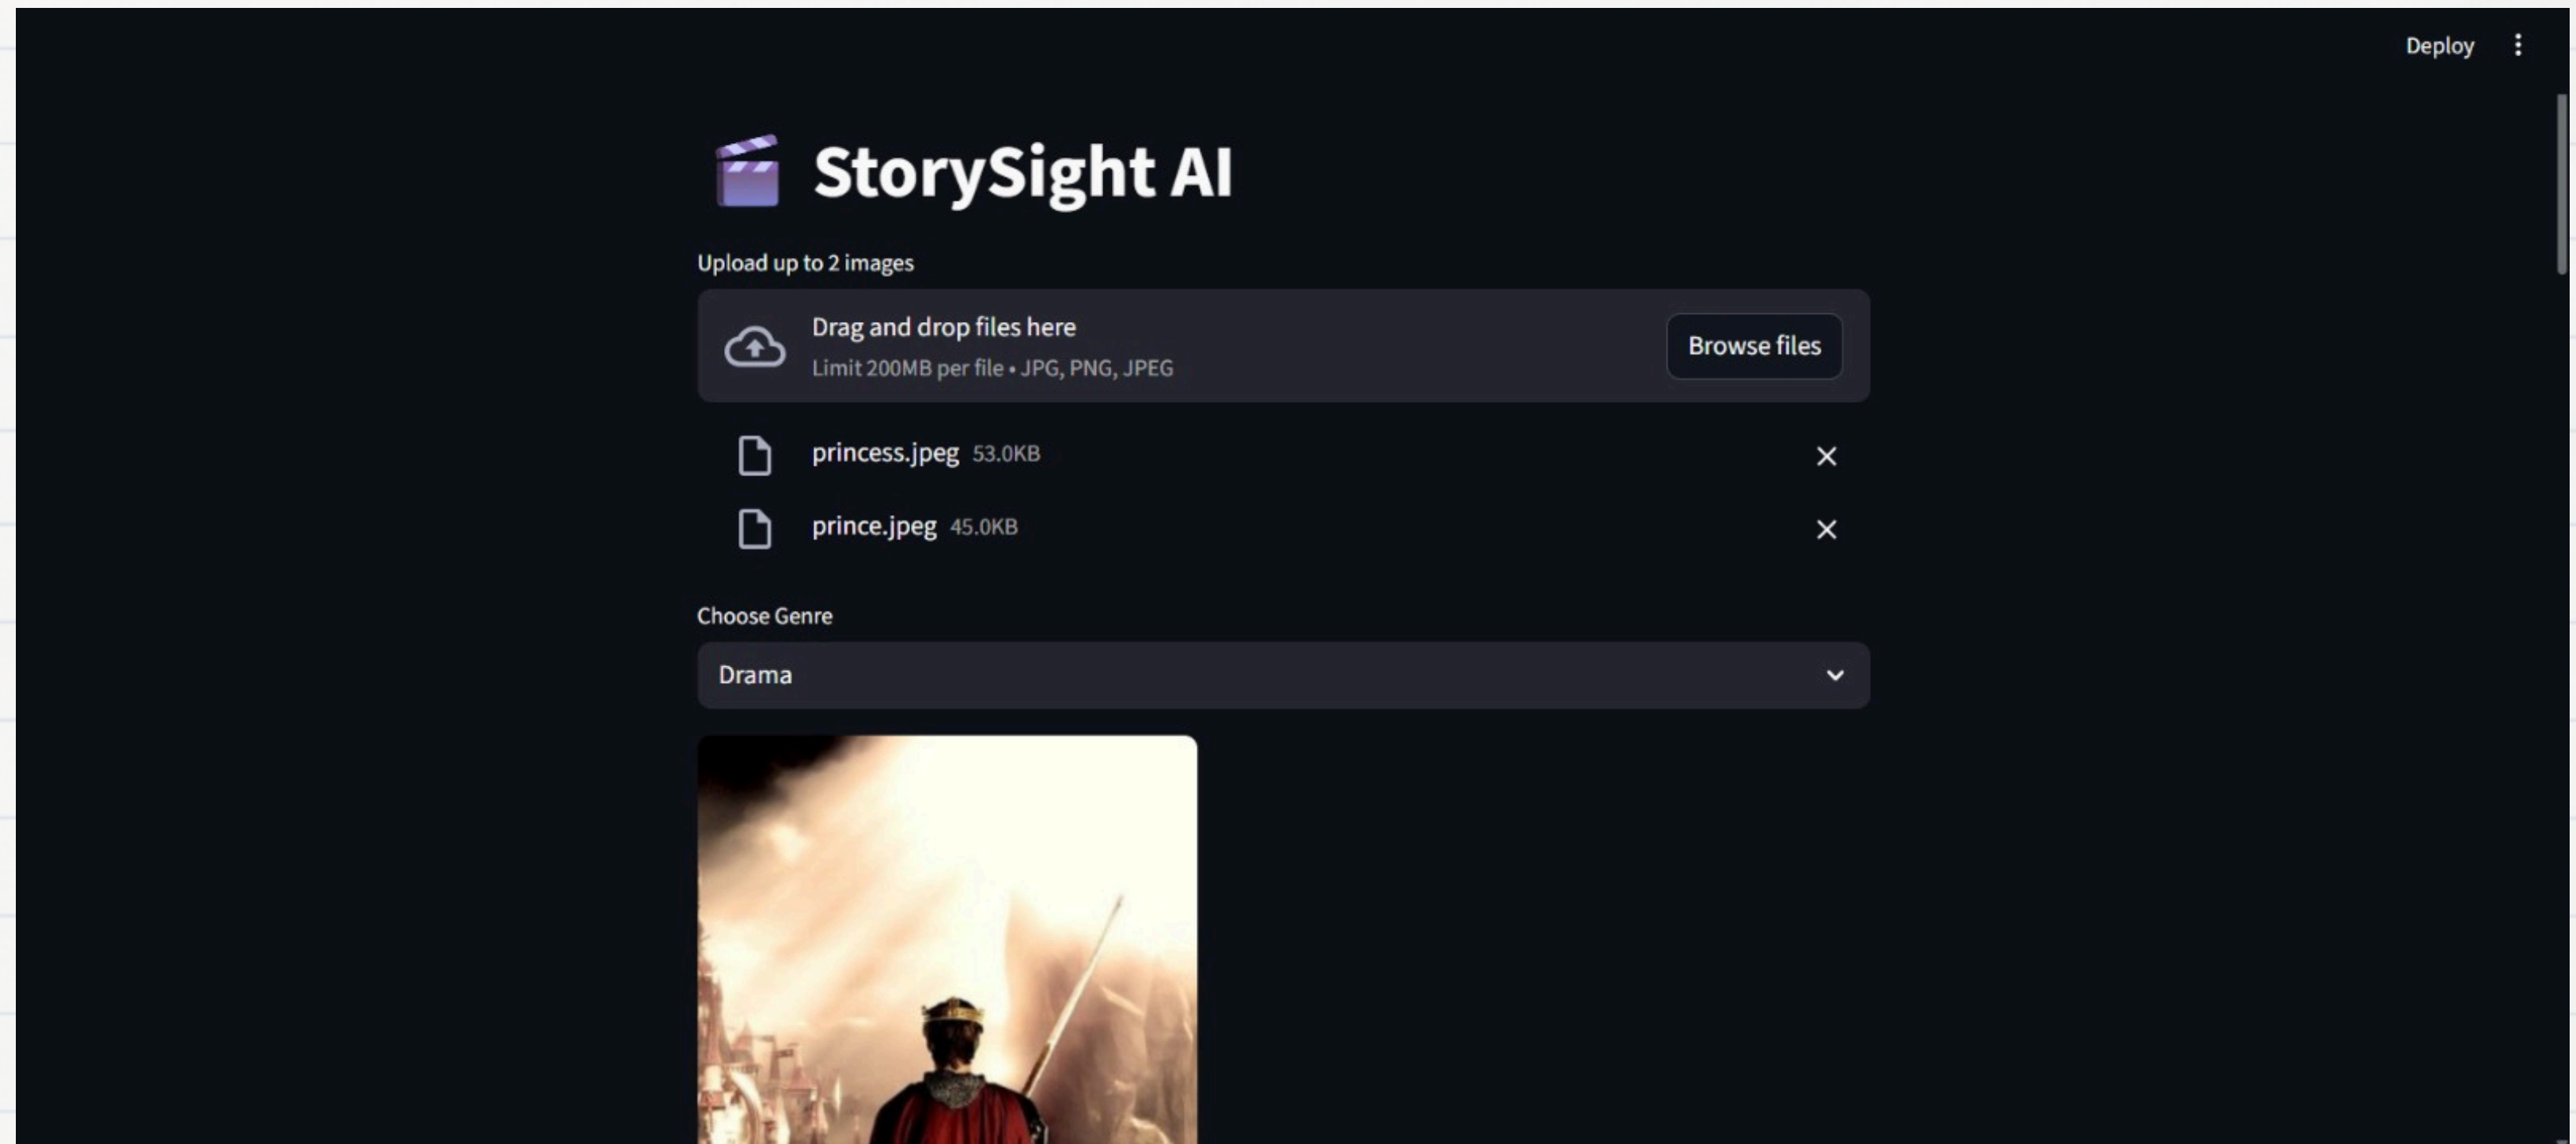

⑥

Feedback Analysis

System detects positive or negative feedback.

Streamlit

StorySight AI

Upload up to 2 images

Combined Caption

a man in a red cloak and cape standing in front of a castle and a woman in a red dress with long black hair

Original Story

In this Drama adventure, a man in a red cloak and cape standing in front of a castle and a woman in a red dress with long black hair find themselves connected by a mysterious event that changes everything around them.

One cold evening, they unexpectedly cross paths in a strange futuristic city filled with glowing lights, advanced technology, and hidden secrets. At first, they are complete strangers, each carrying their own fears, dreams, and unanswered questions.

As the night continues, they begin discovering unusual clues that suggest something dangerous is about to happen. Strange messages appear across giant digital screens, warning the city about an unknown force approaching from beyond the skies.

Despite their differences, they decide to work together. Along their journey, they explore abandoned underground laboratories, secret tunnels, and forgotten places hidden beneath the city. Every step reveals new mysteries and unexpected dangers.

The woman in the black jacket proves to be brave and intelligent, while the young girl shows creativity, curiosity, and courage far beyond her age. Together, they slowly build trust and friendship while facing difficult challenges.

As the night continues, they begin discovering unusual clues that suggest something dangerous is about to happen. Strange messages appear across giant digital screens, warning the city about an unknown force approaching from beyond the skies.

Despite their differences, they decide to work together. Along their journey, they explore abandoned underground laboratories, secret tunnels, and forgotten places hidden beneath the city. Every step reveals new mysteries and unexpected dangers.

The woman in the black jacket proves to be brave and intelligent, while the young girl shows creativity, curiosity, and courage far beyond her age. Together, they slowly build trust and friendship while facing difficult challenges.

As time runs out, they uncover the truth behind the mysterious event. The city's future depends on their ability to stop a powerful experiment that has gone terribly wrong.

In the final moments of their journey, they must make a life-changing decision that could save thousands of people or destroy everything they know forever.

Their adventure becomes a story of courage, teamwork, sacrifice, and hope — a journey neither of them will ever forget.

Improved Story

In this Drama adventure, a man in a red cloak and cape standing in front of a castle and a woman in a red dress with long black hair find themselves connected by a mysterious event that changes everything around them.

One cold evening, they unexpect

The rewritten version now focuses only on the main events while removing unnecessary details. The pacing feels faster, smoother, and easier to follow.

As tension increased, the characters were forced to make difficult choices. A final unexpected moment completely changed the outcome of the story.

Thank You
